

Focal*Point Wireless DNC Network

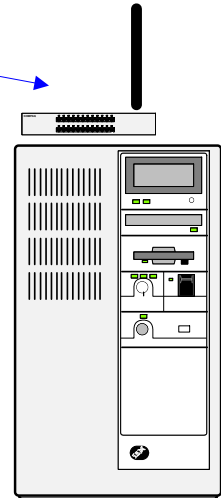

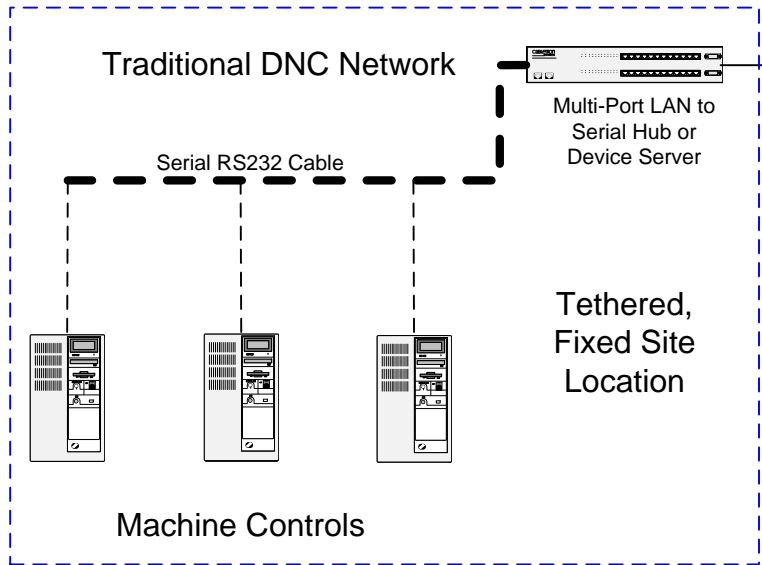

IEEE 802.11b/g/n Encryption

2.4 and 5 Ghz

Focal*Point wireless unleashes machines, protects against noise and lightning disasters.

Line-of-Sight
300 Ft. Range
(Distance May Vary)

Wireless RS232 Hub
Mount inside or outside of the control.

Expanded Machine Mobility
using Wireless Device Servers

Focal*Point is optimized for wireless LAN networks.
Communications range may be increased using additional wireless Access Points.
Tested and approved with several leading device manufacturers.

- Protects Against Noise and Lightning Disasters -
